IT'S ALL ABOUT SUPPORTING DIGITAL HAMILTON

Our new processes expand support across all disciplines for teaching, learning, research, and scholarship.

- Multifaceted project requests receive attention from all academic support experts in LITS.
- CJ 102 is a collaboration center for academic digital initiatives teams (faculty, experts, students) working on a project.
- Lisa McFall and Nhora Lucía Serrano are the consulting team leaders who will get your project started! Janet Oppedisano, LITS director of academic digital initiatives, coordinates resources for your project across LITS.

LITS SUPPORTS

ACADEMIC DIGITAL INITIATIVES | 2019-20

Christian A. Johnson Hall (CJ 102)

Joseph Shelley, vice president for libraries and information technology with Suzanne Keen, vice president for academic affairs and dean of faculty

“The creativity and inventiveness of Hamilton faculty and students know no bounds. Their passion makes possible our promotion of excellence in digital pedagogy and research across the curriculum. LITS is now consolidating existing expertise and resources better to support academic digital initiatives, an important component of the strategic plan. This new arrangement makes it simpler for faculty and students to get started on their digital projects. We have centrally coordinated services, improved opportunities for collaboration, and expanded the possibilities for support.”
